Re: Application of Edward P. Pavicic

To Whom It May Concern:

My wife and I have known Mr. Ed Pavicic since April of 2010 when we first toured two of the homes that he had recently built here in Bay Village. At the time of our viewing, we were contemplating either buying a new home or having an addition added to our existing 7 year-old three bedroom colonial.

The quality of the work that we saw in the two homes impressed us to the extent that we contacted him to give us a proposal on building a family room addition onto the back of our house. In addition to the request to him, we had two other contractors give us proposals for the same type of work. My wife was impressed with the attention to detail that he gave to his proposal along with the quality of the work that we had seen with the other two completed new homes. We were convinced at that time that Ed would be a conscientious contractor and supervisor of all aspects of the construction.

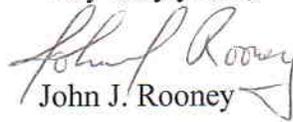

The work on the family room addition began in late June and was completed in early August. The sub-contracted labor was excellent from the framing to the roofing, and finally with the interior finishes. We were especially impressed with Ed's ability to match the existing Bruce flooring from the kitchen into the new addition (he personally supervised the installation and actually sorted through the contents of 22 boxes of flooring planks to use the approximately 12 boxes of quality planks for the new floor).

We have now had the use of the room for six months without any indication of defects or problems. I can honestly say the Ed Pavicic is a quality builder, well respected here in Bay Village, and an excellent candidate to receive a contractor's license in the State of California.
